

# Age Group Lane Timer Assignments

All OKS teams in attendance will be required to provide timers for the meet, including all distance events. Teams will be notified as to which lanes they will be assigned to at least 24 hours prior to the start of the meet. If a team has special limitations the coach must notify the Meet Director at the entry deadline. It is understood that a team may be required to provide timers for an event or session in which they do not have any athletes participating in. The responsibility to provide timers extends through the session in which the team is assigned. Timing Representatives from each assigned team shall report to the volunteer staging area 30 minutes prior to the start of each session in which they are assigned lane timing responsibilities. The lane timing assignment report for the meet will list the report times for each session as well as the lane assignments.
